# About Us

## Our Vision is to:

To become the leading & preferred survey company of choice in the Mining, Construction and Engineering industries.

## Our Mission Statement is:

To provide our customers with accurate surveying services, technology services and drone solution that add significant value in safety and productivity of our clients at competitive prices.

**Introducing Kago Entle Group** – A South African Company  
Dedicated to Community Development

Kago Entle Group, a black-owned South African company, is committed to enhancing the socio-economic growth of the communities where we operate. Our refined operations are designed to empower customers with timely and dedicated service offerings, which include accurate and coherent information to inform their business decisions.

We believe that our job doesn't end with the completion of a project; our clients can expect continued support, maintenance, and related services to ensure they receive value for their investment. While it's essential to use technologically advanced methods to provide superior products/services, we also understand the importance of investing in our employees and working with the right professionals to achieve this goal.

# Our Services

Our core offerings encompass Security Services, Mapping and Modeling, Asset Verification, Environmental Services and Professional Surveying Services. Each of these areas is supported by our deep expertise and commitment to excellence, ensuring that our clients receive not only the most accurate and reliable data but also actionable insights that drive informed decision-making.

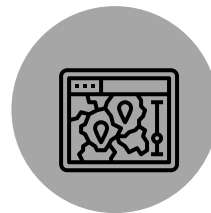

## Technology Security Services

Utilizing state-of-the-art lidar sensors and drone technology, we provide comprehensive security solutions. Our systems offer real-time monitoring, intrusion detection, and rapid response capabilities, ensuring the protection of critical assets and infrastructure.

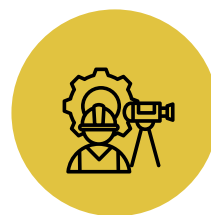

## Environmental Services

We specialize in environmental assessment and monitoring, utilizing advanced drone and lidar technology. Our services include tailing dam inspections, rain readiness assessments, and flooding analysis. By providing detailed data and insights, we help organizations proactively manage environmental risks and ensure compliance with environmental regulations.

## Mapping and Modeling

We offer precision mapping and 3D modeling services, using drones and advanced survey techniques to create detailed, accurate representations of any terrain or structure. Our solutions are ideal for construction, land development, and environmental monitoring.

## Professional Surveying Services

We provide professional land and Mine surveying services, combining traditional expertise with modern technology to deliver accurate measurements and data for any project. From boundary surveys to topographic mapping, our services are essential for construction planning, property development, and infrastructure projects. With a commitment to precision and reliability, we help you build on a solid foundation.

# Our Team

Our team is comprised of skilled professionals who bring together diverse expertise, innovation, and dedication to delivering exceptional results. With extensive experience across various industries, we pride ourselves on a collaborative approach that leverages each member's strengths to provide cutting-edge solutions tailored to our clients' needs.

At the heart of our team lies a commitment to excellence, innovation, and customer satisfaction. Together, we strive to redefine industry standards and create lasting impacts through our collective vision and expertise.
